Using education and awareness to prevent interpersonal harm and create a safer campus community, the RSVP Center facilitates impactful programming, including “The Date,” a play and post-production discussion that students attend during orientation and “#RewindBlurredLines,” follow-up programming to “The Date” for students in their second year.

The RSVP Center also oversees the Leaders in Interpersonal Violence Education (LIVE), the “Stand By Me” prevention initiative, along with the Green Dot bystander intervention program and other tailored educational trainings. The Center’s mission and goal concerning education is to create a paradigm shift and engage the community to eliminate relationship and sexual violence.

“Who can I speak with confidentially?”

The RSVP Center provides confidential counseling and can offer support and options without a responsibility to report.

“What is the difference when speaking with a confidential or non-confidential support resource on campus?”

Confidential individuals can offer support and options without a responsibility to report. Non-confidential individuals offer support and options, but have a responsibility to report information to the Title IX Office.
